

Continental 
The Future in Motion

UltraContact UCJ

Built for daily confidence with long-lasting comfort and reliable all-weather performance.

> Quiet Ride

Reduces road noise for a calmer drive.

> Confident Braking

Reliable braking performance, even on wet roads.

> Better Stability

Stays steady with strong grip and control.

MAKE WAY FOR CONFIDENCE

Product Features

Shoulder Sipe Design

Dual Groove Design

Noise Breaker

High Elasticity Compound

Chamfered Edges

7

Key Benefits

1

Comfort & Silence

Enjoy a quieter, smoother ride every time you drive.

- Noise breaker technology reduces road noise inside the cabin.
- Shoulder sipe design lowers edge noise for better comfort.
- Cushioned design absorbs bumps for a smoother journey.

2

Braking

Confident braking, even on wet roads.

- Special groove design channels water away for better wet grip.

3

Stability

Stay in control with every turn and straightaway.

- Flat-shaped tyre edges maintain better road contact for improved handling and longer wear.

7

Technology / Performance Overview

	🔊 Comfort Silence			🛡️ Braking	🔄 Stability
Benefit	Reduce noise		Comfort	Excellent braking	Better wet handling
Feature	Noise breaker	Shoulder sipe	Elastic compound	Chamfered edges	V-shaped & Wavy sipe
Advantage	Breaks up sound waves	Reduce noise from tread deformation	Cushion off road bump or object impact	Safer with shorten braking distance	Speed up water evacuation
