

Ventus V12 evo2 (K120)

Extreme running through advanced technology

A tire designed for drivers who like to express their own style which delivers outstanding performance in sports driving.

Tire Pattern

Alignment indicator

Drivers can check the status of the vehicle alignment themselves through in or out wear check.

Aqua jet

Aqua jet is the catalyst to channel water effectively out of the center to the main groove wall.

Cooling system

Speeds up water drainage and improves heat radiation at high speed.

Stealth technology

A unique wing tip design reduces noise using 'stealth technology'. The slanted edges support blocks during handling where sounds or trembling hits and reduces impact. Compound technology application of the new styrene polymer features a functional group that improves the chemical combination.

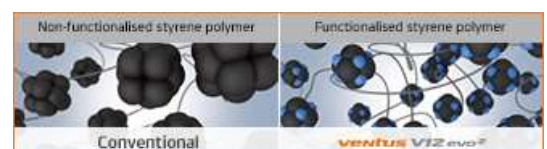

Advanced noise

Increased pitch numbers reduced noise.

Compound technology

Application of new styrene polymer featuring a functional group improves the chemical combination.

Tire Structure

High grip silica compound

- Improved dry and wet traction and lower rolling resistance.

Wide steel belt layer

- Better dry or wet handling.

High density polyester carcass

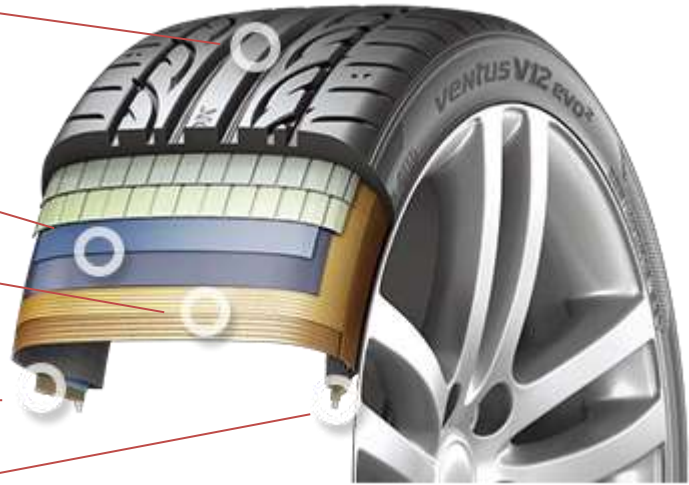

- Enhanced sidewall stiffness and durability.

High stiffness bead filler

- Better steering and handling response.

Strong single bead wire

- Improved uniformity and tire fitting.

Specification

Size	Labeling			Load Index	Speed Symbol
	Fuel Efficiency	Wet Grip	External Rolling Noise		
195/50R15	X	X	X	82	V
