

Dynapro HP2 (RA33)

High-performance tire for luxury SUV's

A high-performance tire for premium SUV's. The Dynapro HP2 meets all the conditions required for premium SUV's including excellent wet performance, low noise, rolling resistance and excellent mileage.

Tire Pattern

Straight 4-channel waterway

Resists hydroplaning & aquaplaning performance up.

High stiffness center rib

Stiff center tread blocks provide precise steering.

Silencer sipes

Prevents harmonic tread pattern sound.

Aqua slant sipes & groove

Radial direction sipes provide improved handling in wet and dry conditions by locking together for greater rigidity. Lateral grooves provide resistance to hydroplaning.

Tire Structure

High loading silica compound

- Dry/wet traction is improved and rolling resistance is lowered.

Jointless full cover reinforced belt

- Ideal tread strength.

Wide 2 steel belt layer

- Better dry/wet handling.

High density polyester carcass

- Better steering & handling response.

Strong single strand bead wire

- Better steering and handling response.
