

# Dynapro MT (RT03)

## Off-road driving excitement

The Dynapro MT boasts superb multi-directional traction, excellent grip, acceleration and anti-puncture capability. Even under harsh off-road conditions expect the best possible driving performance with excellent handling and stability on any road type.

## Tire Pattern

### Side protection block

A side protection block from the tread pattern to the center of the sidewall has a rugged finish and shields against the shock of protruding objects. This also improves traction in soft dirt and protects against pothole damage.

### Zigzag shoulder lugs

The zigzag shoulder pattern delivers greater off-road traction (dry:100km/h, wet: 80km/h).

### Under-groove protector

Tire shoulders are the most vulnerable objects protruding from offroad surfaces. Hankook has added a unique under-groove protector to prevent impact damage and soften external shock for greater driving safety.

## Tire Structure

### Nylon-reinforced belts

- Provides additional strength.

### High-strength belts

- Improves steering stability and durability.

## Specification

Size	Labeling			Load Index	Speed Symbol
	Fuel Efficiency	Wet Grip	External Rolling Noise		
31X10.50R15	X	X	X	109	Q
