MICHELIN

THE TECHNOLOGY BEHIND MICHELIN LTX FORCE

MICHELIN's off-road tyre with on-road capabilities, for multi-purpose use

On-Road capabilities

CompacTread Technology:

- Reinforcement between blocks increases contact area with the ground, for better braking & safety
- Longer tyre life by 18,000 kilometers than the previous generation
- Brakes 0.8 meters shorter than the previous generation

BevelTread Technology:

- A rounded sloping edge cuts the peaks of noise power, thus providing a noticeably quieter and more peaceful ride.

CushionGuard Technology:

- It absorbs road imperfections for a comfortable ride.

Off-Road Toughness

Extended Sidewall Biting Edge:

- Making the sidewall tough and cut-chip resistant

Shoulder Design:

- Deeper tread depth by 1.4 mm than the previous generation for better off-road traction

Rubber compound derived from World Rally Championships:

- Optimized off-road traction, thanks to the experiences gained from FIA WRC competitions.

The performance results are based on internal tests evaluations conducted between MICHELIN LTX Force and MICHELIN Latitude Cross.

FOR EVERY TERRAIN... MICHELIN HAS AN SUV OFFER

	Highway Asphalt Road	City Commuting Asphalt road, cement road, stone road	Light Off-Road Unpaved Road: crushed stones, dirt, gravel	Moderate Off-Road Sand, wet mud	Severe Off-Road unsurfaced natural terrain
MICHELIN Latitude Sport 3 Sport performance	Best	Very Good	Limited	Limited	Limited
MICHELIN Primacy SUV Silence & Comfort	Best	Best	Fair	Limited	Limited

MICHELIN LTX Force On & Off Road

Good Very Good Best Very Good Fair

• The performance ratings are based on Michelin's internal evaluations and internal comparison among Michelin's own tyres.
 • The performance ratings are intended to provide general guidance/reference when selecting a MICHELIN tyre.
 • They are not a guarantee of customer satisfaction.
 • Please consult with a Michelin Authorized Dealer for professional advice on the right tyre and performance to match your vehicle.
