MICHELIN XJE 4 MIX ENERGY

ALL POSITIONS & ALL SEASONS TUBELESS TYRE FOR LONG DISTANCE & MEDIUM OPERATIONS

FUEL CONSUMPTION REDUCTION

Very low rolling resistance performance from Michelin ENERGY technology applied to rubber compound and casing construction. At least 3% fuel cost reduction at nominal conditions vs standard radial tyres.

HIGH SAFETY THANKS TO HIGH LONGITUDINAL AND TRANSVERSAL WET GRIP PERFORMANCE

Michelin Durable Technologies Pattern with full depth "double wave sipes", bringing long lasting grip throughout entire tyre life and under polyvalent usage, all year long and in all seasons.

HIGH MILEAGE PERFORMANCE

- Specific rubber for long distance and regional conditions.
- Pattern with double wave sipes limiting tread block movements inside the contact patch, maintaining optimal rigidity to reduce wear and increase mileage.

Pattern when new

Pattern at 50% worn level
